## ABOUT THIS YEAR'S CONFERENCE

The 34th Visayas Area Business Conference (VABC) is the annual gathering of the 23 local chambers of the Philippine Chamber of Commerce and Industry (PCCI) across the Visayas Region, hosted by the PCCI – Tacloban Leyte Inc. under the theme “Visayas Rising: Accelerating Growth Through Digital Transformation”, happening on 23 – 25 July 2025, at the Leyte Convention Center, Palo, Leyte.

The 34th VABC focuses on the critical need for digital transformation among the region's Micro, Small, and Medium Enterprises (MSMEs). While MSMEs are the backbone of the Visayas economy, many lack the resources, digital skills, and knowledge to effectively adopt AI, automation, and other crucial technologies.

Visayas Rising offers a practical, hands-on solution. The conference provides a unique blend of learning and implementation through interactive workshops, live technology demonstrations, and networking opportunities with industry experts and fellow businesses. The goal is to equip MSMEs with actionable strategies, the right digital tools, and a clear plan to successfully integrate technology, ensuring their growth and competitiveness in the digital age.
